

To Whom It May Concern,

Vantage Lighting's F-class fixtures, X-Class fixtures, and C-Class round fixtures, its high lumen fixtures, its fluorescent recessed fixtures, and its cylinders, high-bays and low-bays meet the "Buy American" requirements (41 U.S.C. 8301-8305). All of these Vantage fixtures are 'US made' consistent with the requirements of these programs.

Please note any specific 'Made in America' requirements on orders. If you have any questions, please contact me.

Sincerely,

A handwritten signature in black ink that reads 'Steven B. Kaufman'.

Steven B. Kaufman
